Summary

Full Stack Developer with hands-on experience in MERN stack development, REST APIs, and database-driven applications. Interested in building practical and scalable web applications.

Education

Master Of Computer Application (MCA)

JSPM's Jaywant Institute Of Management Studies

2025 – Present

Pune, Maharashtra

Bachelor Of Software Development (B.Voc(SD))

Sangamner College

2022 – 2025

Sangamner, Maharashtra

Experience

Web Developer Intern

StartingCore

March 2026 – August 2026

Pune, Maharashtra

- Worked on Agrivia, a Progressive Web App (PWA) that helps shop owners manage inventory and stock operations.
- Developed web application features using the MERN stack, with Supabase as the database and Cloudflare for image storage.
- Integrated Gemini API to scan bills and extract relevant information for faster inventory data entry.

Projects

Personal Portfolio Website | *Node.js, Express, EJS, Tailwind CSS*

[Live](#) | [GitHub Repo](#)

- Built a responsive portfolio website using Express and EJS with reusable components and server-side rendering.
- Integrated Nodemailer to handle contact form email submissions.

Ride Sharing Platform | *Node.js, Express, MongoDB, EJS*

[Live](#) | [GitHub Repo](#)

- Developed a ride-sharing platform for creating and booking rides with JWT authentication and role-based access.
- Built REST APIs for ride management and integrated MongoDB for data storage.

Job Portal Web Application | *Node.js, Express, MongoDB, React, JWT*

- Built a job portal connecting recruiters and candidates with job posting and application features.
- Implemented JWT authentication, REST APIs, and resume/file management functionality.

Technical Skills

Languages: JavaScript, SQL, HTML/CSS

Frontend: React.js, EJS, Tailwind CSS

Backend: Node.js, Express.js

Databases: MongoDB, Supabase

Cloud: AWS, Cloudflare

Developer Tools: Git, GitHub, Postman

AI: Gemini API
